EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eugene Shkurko (registration No 36678) on 3/18/05.

The application has been amended as follows:

-In claim 12, line 8, after "global bitlines", insert --by a connector--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest a memory device comprising an array of memory cells, bitlines and wordlines for addressing the memory cells, the bitlines being divided into sectioned bitlines for sections of wordlines, a plurality of global bitlines, and a connector connecting sectioned bitlines to a global bitlines, the connector being bi-directional and using the high order of the wordline addresses for a section of bitlines as disable reset command such that the reset stays active for unselected portions of the array thereby compensating leakage of a mass of unselected memory cells which could disturb valid read signals (claim 1); and a method of using such device (as claimed in claim 12) .

Art Unit: 2824

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
